SUMMARY

Transforming ideas into real-world applications, from full-stack development to Web3 integration.

EXPERIENCE

Full Stack Developer

Mintix

December 2024 – Present, Remote

- **Built and launched** a complete **mobile app** using **React Native (Expo)** and contributed across the stack—from **MVP to production**, covering frontend, backend, and web3 integration.
- **Created 50+ REST APIs** including **core product features**, **analytics**, and **Stripe checkout flows**; integrated **AWS S3**, **Redis**, **CDN**, and other 3rd-party services.
- **Optimized SEO to 98+** and **performance score to 80+** for main site; led testing, deployment, and monitoring to ensure a smooth and scalable experience.

Frontend Developer Intern

Hexleap

May 2024 – December 2024, Remote

- **Built 3 full-stack websites** (user-facing app + 2 dashboard panels) **from scratch** using **Next.js**.
- **Integrated 30+ APIs** with **React Query** and **Zustand**, enabling seamless data flow and real-time state management.
- **Improved performance by ~40%** with **code optimization**, added **smooth animations**, and enhanced UX using **Tailwind CSS** and **React Hook Form**.

Frontend Developer Trainee

CETPA

July 2023 – September 2023, Remote

- **Built responsive UIs** for 5+ pages using **React.js** and **Tailwind**, improving UI consistency by ~30%.
- **Developed an e-commerce app** with 20+ products, cart, and checkout, completed as a demo-ready project.
- Implemented dynamic features with **React Hook Form** and **Zustand**, streamlining form validation and state management.

PROJECT

Tailwind Color Suggester

github.com/HimanshuJain04/Tailwind-Color-Suggester

- Developed a **VS Code extension** to suggest the closest **Tailwind CSS colors** from the user's **existing config file**, speeding up design-to-code workflow.
- Enhanced developer **efficiency** by eliminating manual hex-to-Tailwind color mapping.
- Reached **250+ downloads**, gaining traction in the frontend developer community.

Twitter Clone

twitter-himanshu.vercel.app/

- Built a Twitter-like app using **Node.js**, **React.js**, **MongoDB**, and **Express.js**, featuring real-time chat with **Socket.IO**.
- Designed a responsive UI with **Tailwind CSS**, optimizing data retrieval with efficient query strategies for improved performance.

SKILLS

Full-Stack Development: React.js, Next.js, Tailwind CSS, Redux, React Hook Form, Zustand, Node.js, Express.js, TypeScript, Prisma

Databases: MongoDB, MySQL, PlanetScale, PostgreSQL

DevOps & Tools: AWS (S3), Docker, Git, Postman, Stripe

Web3: Solana, Web3.js

Others: CI/CD, SEO Optimization, Performance Testing (Lighthouse), Jest, NPM, Yarn

EDUCATION

Bachelor of Technology in Computer Science

Teerthanker Mahaveer University • Moradabad, Uttar Pradesh • 2025
